

# MIAMI BEACH

OFFICE OF THE CITY MANAGER

254-2012

## LETTER TO COMMISSION

TO: Mayor Matti Herrera Bower and Members of the City Commission  
FROM: Kathie G. Brooks, Interim City Manager   
DATE: October 5, 2012  
SUBJECT: **Intersection Closure – South Pointe Drive and Washington Avenue**

The purpose of this Letter to Commission is to provide you with information on an intersection closure due to construction by the Miami-Dade County Water and Sewer Department (WASD) of the emergency by-pass force main in the South Pointe Neighborhood.

Miami-Dade County Water and Sewer Department (WASD) is installing a 60-inch diameter force main from a shaft in South Pointe Park, north on Washington Avenue, and west on Commerce Street to connect to an existing force main on Alton Road. (Attachment A)

WASD will be installing the section of the force main across South Pointe Drive beginning Monday, October 8, 2012. This will necessitate the closure of the southbound lanes of Washington Avenue through the intersection of South Pointe Drive. Eastbound and westbound traffic on South Pointe Drive will need to detour around Washington Avenue using 1<sup>st</sup> Street.

Upon consultation with Joe's Stone Crab, it has been determined that its valet operations will operate more efficiently and safely by limiting Washington Avenue traffic to one-way northbound between South Pointe Drive and Commerce Street. Between Commerce Street and 1<sup>st</sup> Street, southbound traffic will be limited to deliveries, garbage pick-up, and emergency vehicles. (Attachment B)

Miami-Dade Transit has been advised and will be temporarily revising its bus routes.

It is anticipated that WASD will have the intersection restored three weeks after it begins work.
